Simple Assignment Operator

```
done   =        Simple assignment operator
```

Arithmetic Operators

```
Done +        Additive operator (also used
done          for String concatenation)
done -        Subtraction operator
done *        Multiplication operator
done /        Division operator
done %        Remainder operator
```

Unary Operators

```
Done -        Unary minus operator; negates
        an expression
done ++       Increment operator; increments
        a value by 1
done --       Decrement operator; decrements
        a value by 1
done !        Logical complement operator;
        inverts the value of a boolean
```

Equality and Relational Operators

```
Done ==       Equal to
done !=       Not equal to
done >        Greater than
done >=       Greater than or equal to
done <        Less than
done <=       Less than or equal to
```

Conditional Operators

```
Done &&       Conditional-AND
done ||       Conditional-OR
```
